## SUMMARY

**Senior Software Engineer and Product Builder** with **6+ years of experience** designing and developing scalable **frontend and mobile applications** using **React, React Native, TypeScript, and Python**.

**Founder & Product Engineer of an EdTech product** with hands-on experience building offline-first mobile apps, automation tools, and AI-assisted workflows. **Strong product mindset** with practical exposure to system design concepts through self-driven case studies. **Seeking frontend / product/software engineering roles** where technical execution, product thinking, and ownership matter.

## TECHNICAL SKILLS

- **Frontend & Mobile:** React, React Native, TypeScript, JavaScript, Component architecture, state management, performance optimization, UI/UX implementation, Design systems
- **Backend & Automation:** Python, REST APIs, SQLite, PDF automation, data extraction, workflow automation
- **System Design (Self Learnt):** Event-Driven Architecture (EDA), AI Agent Workflows, Frontend System Design
- **AI & Productivity:** AI Automation, LLM Integration, Prompt Engineering
- **Professional:** Product Thinking, Agile Execution, Mentoring, Stakeholder Collaboration

## PROFESSIONAL EXPERIENCE

### Founder & Product Engineer [Self Employed] - Victories World

DEC 2024 - PRESENT

- **Designed and launched Life Navigator**, an offline-first personal development mobile app using **React Native, TypeScript, and SQLite**, enabling seamless usage without continuous internet access.
- **Built and shipped multiple digital micro-products** focused on mindset transformation, communication skills, and career planning.
- **Conducted user interviews and iterative product validation**, influencing feature prioritization and retention-focused improvements.
- **Owned end-to-end product lifecycle:** ideation → architecture → development → release → feedback.

Tech: **React Native, TypeScript, SQLite, Next.js, Clean Architecture**

### Senior Machine Learning Analyst — Accenture India

MAY 2024 - OCT 2024

- Proactively contributed to **AI-driven document automation solutions**, improving data processing efficiency and reducing manual intervention.
- **Collaborated cross-functionally** with product and engineering teams to translate business requirements into **scalable technical implementations**.
- Active participation in **code reviews and resolution of issues** for client demos

Tech: **Microservices, Prompt engineering, Python, Fast API, AWS Lambda**

### Software Engineer — EIIC (Eaton Group)

DEC 2019 - MAY 2024

- **Led enterprise digitization and automation initiatives**, delivering a **70%** turnaround time reduction for the "Drawing to Digitization" program.
- Developed **10+ Excel VBA automation tools**, significantly reducing repetitive operational workload.
- Built a **Python-based PDF-to-Excel extraction system** using **PyPDF2, Pandas, and Regex**, reducing manual data handling by **30%**.
- **Mentored 6 interns**, guiding them on **automation logic, clean coding practices, and end-to-end delivery**.

Tech: **Python, Fast API, UI Development, Backend Integration, Excel VBA, Pandas, Automation Scripts**

## EDUCATION

M.Tech – Software Engineering [Discontinued]

BITS Pilani (WILP) | Jan 2024 – May 2025

B.Tech – Mechanical Engineering

GPA: 9.53 / 10.0

VIT, Pune | May 2019
